**Extended Keynote:**  
Represents the vastness of the light (clear, which contains all the colours), held as a potential for wholeness within the vastness of our own depths (deep magenta). Metatron brings the bright light from Above into the shadow of our being where conditioning that has clouded our self-awareness can be illuminated; thus we might see our suffering in the context of love and the ongoingness of life, and release it for the greater
truth of who we are. The nourishment of the light enables letting go of what we have said ‘no’ to, resisted or denied within ourselves.

Set: Archangel Set/Rescue Set/Tantric Illumination Set/Extended New Aeon Child Set

B101 – Archangel Jophiel - Pale Blue/Pale Olive - Shakes-to: Pale Turquoise

Keynote: The way back to the garden of the heart and the opening to a new level within our being.

Extended Keynote:
Represents the will of the Divine (pale blue) coming to us through an intense communication from Above as the still, small voice within. Trusting the feminine within, allowing peace in its most intense form to link with our true purpose. This stimulates our feeling side (pale olive) and helps us to remember ourselves as beings of light. Jophiel's role was to lead Adam and Eve out of the Garden of Eden; thus, the angelic hope for human beingness is to help lead us back. As our true nature is illuminated, we are able to come back to the garden of the heart where our seeming dualities are integrated and we experience inner union. The shake-to colour of pale turquoise may also help to stimulate heightened creative expression and illumine the journey of individuation.

B102 – Archangel Samael - Deep Olive/Deep Magenta - Shakes-to: Deep Magenta

Keynote: O-live, where we may find a new beginning for hope within ourselves and a new foundation for our lives.

Extended Keynote:
Can help to illuminate where we have built structures in our lives that create a false sense of security and undermine our vitality for life. Loss can make way for something new to come as we let go of the bitterness of the past and trust the truth that can give us ground to build anew. Deep magenta helps to bring love from above into our subconscious shadow areas, while the deep olive helps to deepen feminine intuition in our conscious mind and offer a guiding light of hope toward the future. Archangel Samael has been attributed to The Tower tarot card which indicates a complete re-evaluation of the circumstances of life. Therefore the positive potential offered by Samael energy is to live, by first accepting and then releasing those things that we find most difficult in ourselves, that we may embrace a new sense of hope, freedom and love of life.

B103 – Archangel Haniel - Opalescent Pale Blue/Deep Magenta - Shakes-to: Opalescent Deep Magenta

Keynote: The support for the Higher will and the development of the Light body. Haniel asks: ‘Are we part of the solution or part of the problem?’

Extended Keynote:
Represents the opportunity to fulfill our purpose in the context of the deepest love and a choice to become part of the solution rather than part of the problem. Offers support for the unfolding of our purpose by protecting the communication that comes to us and through us (pale blue) as we develop alignment with that which is above us (deep magenta). Can help us to reclaim our sovereignty that we may discover our own truest will as an expression of the higher will that dwells within us.

B104 – Archangel Chamael - Iridescent Rose Pink/Magenta - Shakes-to: Iridescent Magenta
Keynote: It is as it is. A new beginning for love. A new order of being as ‘I love myself the way I am’.
Extended Keynote:
Can help to bring forward the feminine aspects of intuition, protection, self-acceptance and compassion (iridescent pink). This gives more space in our depths to draw love from above for all that we are, as we are (magenta). This loving acceptance of who we are in the moment, rather than who we would like to be, enables a new beginning for love that is free from the judgement of self, which may also help us to accept and appreciate others as they are moment to moment.
Set: Archangel Set

B105 – Archangel Azreal - Iridescent Coral/Coral - Shakes-to: Coral
Keynote: Deep insight, ecstasy and upliftment.
Extended Keynote:
The gold iridescence in the upper fraction of the coral brings the possibility of alchemical transformation and release of karmic patterns by bringing our attention to the way we do what we do. This can help with restoring the timeline, freeing us to express compassion and love-wisdom toward others. Also represents feminine receptivity, transformation and going beyond separation towards unity. As we move beyond duality and separateness toward unity of being (the A – Z of Azreal) we can help to usher in a new Golden Age of consciousness.

B106 – Archangel Ratziel - Pale Olive/Lilac - Shakes-to: Lilac flecked Pale Olive
Keynote: Reciprocal maintenance and the inner alchemy of the heart.
Extended Keynote:
May help to loosen the deeper layers of conditioned patterns from the past. Lilac in the lower fraction can facilitate a process of deep transmutation; the pale olive indicates that the veils which cloud our vision are being parted and our transformation has begun. In learning to trust in the star at the centre of our being, the alchemy within the golden area unfolds and inner confidence expands.

B107 – Archangel Tzaphkiel - Opalescent Turquoise/Deep Magenta - Shakes-to: Very deep Turquoise Magenta with flecks
Keynote: Support from the Divine Feminine within for individuation and heightened creativity. The marriage of Love and Truth.
Extended Keynote:
Brings assistance in the process of personal and collective individuation and creativity (turquoise). As the soul-stuff is stirred in our depths, the questions of Love and Truth are called forth to weigh how much our hearts are heeded in our life choices and with sensitivity toward the being of the earth. The ‘rescue’ aspect of deep magenta helps to rescue our higher potential from the difficulties of the past through letting go. As we are lightened the Divine Feminine invites us into the grace of unfoldment: the wonder of stepping into the flow of our fulfillment and the expansion of the "I Am" within.

As we release self-judgement and trust our intuition, we are able to be more discerning about our role in the world and our relationship with the earth. In our progress along the journey of individuation (turquoise), we may experience heightened creativity through the co-creation of love and truth in the "heart within the heart."

B109 – Archangel Zachariel - Magenta/Mid-Tone Olive - Shakes-to: Olive flecked with Magenta
Keynote: Sincerity in love. Letting go, we are already forgiven.
Extended Keynote:
A new sense of hope arises as we let go of the fears in the context of love. The bitterness is resolved as we put our love, warmth and caring into the little things each day. The olive process is always about letting go of the bitterness: individual, ancestral and collective, and the process of marination that reveals the gold within. This process is alchemical, bringing a profound change to our nature and a sweetness of spirit that creates us anew. The new pinker magenta shows us that the love from above is nearer and more accessible than we may think. As we open to the grace of awakening that has already forgiven all that has passed, and walk into the ever-present light of love, we may claim the dignity of our true kingship and the eternal treasures that await us.
