

Beyond Colour

Gran Canaria, Spain
14th - 16th September 2018

Aura-Soma has been in the world for more than 30 years so to re-evaluate what we have been doing, to have a new look at what is most important, what Vicky brought into being, how things have developed since 1991 and to then establish the direction of the next decade as a projection into the future based on the current view, is now timely and what Beyond Colour is about.

This re-evaluation is important because now so many people are ready to embrace Aura-Soma yet the view we were presenting in the world was becoming dated. We needed to re-evaluate our language so that those people who want to embrace it can hear the message, which means that they can get the benefit of what is available through Aura-Soma in their journey with themselves. This is the objective of what is happening, to activate and empower the new way.

We would encourage as many of those students that are Level 2 and above as possible to make a space to attend because it is going to be an opportunity to look at all the parts of the system and a chance for us learn how to present this new view in the world.

The new language will be presented, the new image for Aura-Soma, the new way of looking at what we are doing with Aura-Soma and how it will be done will all be part of those days. If you want to be part of this future this will be a very important time to make a space for your love of Aura-Soma and for what is happening to come about. I would like as many people as possible to be a part of that

What the Participants are saying...

"So happy that I went because it was amazing. It was exciting to be part of the pioneer group and I got to meet extraordinary people who filled me with inspiration and confidence to go out and back the changes 100%." Monica

"Feels so good about backing these changes 100%. What we are moving forward which is so needed during these times. How it is we are to focus the energy and harness the full potential of Aura-Soma...how we invite people in to discover themselves is becoming even more client centred and a deeply empowering exchange for both participants. I really feel you will walk away feeling so inspired, confident and supported by The Academy with many new resources and insights in how to do what you already do with more love, more ease and a greater awareness of what it is you have to contribute." Rebecca

"In simplifying the consultation process - it is so much easier to work with. Conversation with the client just flows. We all left after this 3 day update feeling happy and confident and ready to embrace and share these beautiful Aura-Soma products." Julie-Anne
